Surmet Corporation enters its 25th year of operation

Founded in 1982, Surmet Corporation of Burlington, MA enters 25th year of profitable operations with an excellent reputation for providing advanced materials solutions for the next generation equipment and systems of its world class customers.

Surmet has established itself as technology leader in vacuum vapor deposited coatings and advanced Optical Ceramics fabrication. Fortune 500 customers depend on Surmet for its high purity coatings for semiconductor process chamber solutions, ALON and magnesia Spinel technical ceramics for IR window, dome and transparent armor applications.

In addition to its HQs facilities in Burlington, MA, Surmet has sizable operations in Buffalo, NY, Santa Clara, CA and Murrieta, CA.

We wish to take this opportunity to thank our valued customers, suppliers, employees, SBIR program managers from US DOD, DOE and industry colleagues who have contributed to our success and helped us remain in business for all these years. We are thankful to you all.

We pledge to continue this heritage as we solve even more challenging industrial problems for our customers over the next 25 years!
