Surmet Corporation relocates its corporate offices to 31 B Street, Burlington, MA 01803

Surmet Corporation, a leading provider of semiconductor OEM components and advanced optical ceramics, has relocated their corporate headquarters from 20 B Street to 31 B Street, an additional facility in Burlington, Ma 01803. The move to 31 B Street, a 6000 sq. ft office building is necessitated, by the need to accommodate company's expansion in number of employees and facilities needed to accommodate our growing semiconductor and optical ceramics business. In addition to Surmet's three facilities in Massachusetts, located in very close proximity to each other- 20 B Street, 31 B Street and 33 B Street all in Burlington, Massachusetts, Surmet has ceramics manufacturing facilities in Buffalo, NY and a ceramics fabrication facility in Murrieta, Ca. Surmet also has a Sales, Marketing and strategic business development office located in Santa Clara, Ca.
